Other benefits of the program will be; one on one mentoring, completing a community project and inspirational guest speakers.

'I had sooo many 'ah-ha' moments! I have more direction and understand my approach to life better. Thank you!'

Program Overview |

Anecdotally the 18 – 25 year age group are entering a period of their lives where they have opportunities and are expected, or expecting, to step into leadership positions, but are often lacking some of the skills, support, resources and self-knowledge to do so.

The intention of the Mansfield L.E.A.D program is to engage Mansfield's young adults in an authentic, hands-on leadership experience. Through developing a deeper understanding of personal values, leadership archetypes and effective communication, participants will grow in confidence and will be more resilient in relationships, study and professionally.

'The best thing about the program were the activities that pushed us outside of our comfort zones and forced us to grow.'
