

## 2019 MANSFIELD L.E.A.D

### Program Overview |

Mansfield L.E.A.D is an 8-day personal leadership development program that aims to provide a theoretical and practical knowledge base on leadership, communication and team building. Our immersive learning activities and one-on-one coaching sessions will empower individuals by further developing their skills and connect them through a shared experience. A highlight is always the inspirational speakers who share their stories, knowledge and pass on skills. The Summit includes a team-based challenge which allows participants to apply new skills through the development and implementation of a small community project.

#### Challenge

Individual & team-based challenges enable participants to apply learning immediately, encourage growth, connection & help build resilience.

#### Toolbox

We will provide participants with the skills, resources and self-knowledge to transition into any future team or workplace.

#### Leadership

Our introduction to Leadership Archetypes builds the foundation for developing capable, confident and motivated individuals.

#### Decision Making

Participants will develop a purpose plan through self-reflection & goal setting. A deeper understanding of personal values will increase commitment & performance.

#### Team Dynamics

Introvert/extrovert profiling, conflict resolution & asset mapping will build leadership capacity and inform decision making.

#### Communication

Effective communication through one-on-one mentoring, debriefing & open, honest conversations will enhance skills.
